

VISION AND ARTIFICIAL ARTIFICIAL

Wybot M2 Vision

The Wybot M2 Vision is a cordless pool robot that combines advanced technology and power. Equipped with an intelligent camera, it detects and targets debris with unmatched precision. Its power ensures optimal efficiency, whether cleaning the pool floor, walls, or waterline, and it adapts to all types and shapes of pools.

Unmatched
Power

Designed for unmatched performance.

With 120 W, 3 powerful motors, a suction flow rate of 15 m³/h, and a movement speed of 10 m/min, the Wybot M2 Vision combines power and precision for flawless cleaning, cycle after cycle.

Superior
autonomy

Built to last.

Its battery is designed to last, allowing the Wybot M2 Vision to deliver up to 5 hours of runtime after just 3 hours of charging. Perfect for complete cleanings, it combines endurance with efficiency.

Dual
filtration

Ultra-efficient filtration for crystal-clear water.

Equipped with dual filtration, the Wybot M2 Vision includes a 180 µm filter to trap large debris and a 25 µm cotton filter to capture the finest particles. With a large 5-liter capacity, its dual filter ensures effective cleaning while reducing the need for frequent maintenance.

Intelligent
navigation

A revolutionary vision for efficient cleaning.

The Wybot M2 Vision is equipped with an intelligent camera, allowing it to identify leaves and debris in the pool. Thanks to its advanced vision technology, it moves directly toward the areas to clean, ensuring maximum efficiency and significant time savings.

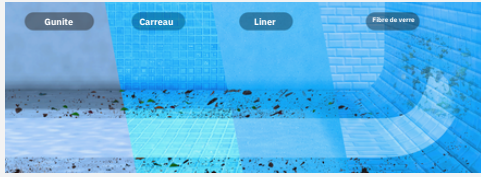

Continuous
learning

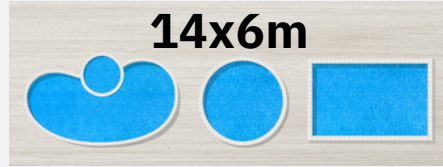

Intelligent adaptation for perfect cleaning.

Its artificial intelligence and continuous learning algorithms allow the robot to constantly adjust its parameters to adapt to your pool and the areas most frequently covered with debris.

For which type of pool?

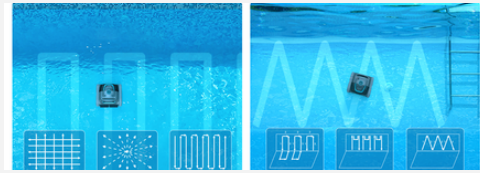

The Wybot M2 Vision adapts to all surfaces : tiles, liner, concrete, or fiberglass for perfect cleaning.

The Wybot M2 Vision adapts to all pool shapes: rectangular, round, or freeform, for efficient cleaning everywhere.

Among its 8 cleaning modes, the "debris hunt" mode of the Wybot M2 Vision detects, identifies, and targets debris, moving directly to them for precise and efficient cleaning.

Connected to the Wybot app, the user can access predefined movement paths for the ground (3 patterns) and the walls (3 patterns).

TECHNICAL SPECIFICATIONS

Cleaning Coverage	Floor, walls & waterline
Usage / Charging	5h00 - 3h00
Filtration	180µm filter basket + 25µm cotton filter
Weight & Size	11kg - 46(L)x42(l)x23(H) cm
Motors & Power	3 motors - 120W
Suction Flow Rate / Movement Speed	15 m3/h - 10m/min
Battery Power	25.5V 10000mAh
Sensors	Gyroscope, Infrared, Depth & Vision
Mobile Application	✓
Remote Control	✗
Cleaning Mode Configuration	Via APP
Timer Types	1 x 180 min 2 x 90min 3 x 60 min 4 x 45 min
Modes Cleaning	Floor - Walls - Waterline - Walls + Floor - Standard complete pool - Turbo - Eco - Expert - Vision (Floor)

Included in the packaging

- Robot
- Charger
- Floating parts
- Retrieval hook
- User manual
- Quick start guide

36-Month
Warranty
