

**AGILITY  
AND  
PERFORMANCE**

# Wybot S2Pro

The WYBOT S2 Pro is a high-end pool robot designed for optimal maintenance. Thanks to its powerful engine and compact design, it efficiently cleans the pool floor, walls, and waterline, adapting to all pool shapes. With its built-in induction charging, the S2 Pro autonomously returns to its docking station when its battery is low and stores itself just beneath the coping, within easy reach.

Versatility

## **Designed to adapt to every configuration.**

The Wybot S2 Pro guarantees effective and effortless cleaning. With its compact size, reduced weight, suction power, and optimized autonomy, it cleans every area of the pool with agility, from corners to walls.

Autonomy

## **Designed to combine practicality and efficiency.**

With a battery offering an autonomy of 3 hours and 30 minutes, the Wybot S2 guarantees a clean pool while reducing your interventions. The robot automatically returns to its charging station when the battery is low, simplifying pool maintenance.

Intelligent navigation

## **Station de charge tout-en-un**

The Wybot S2 Pro robot automatically returns to its charging station at the end of its cycle or when the battery is low, simplifying pool maintenance.

Dual filtration

## **An ultra-efficient filtration for crystal clear water.**

The Wybot S2 PRO is equipped with dual filtration, combining a 180 µm basket for large debris and an ultra-fine cotton foam of 25 µm for the finest particles. Thanks to its 3.8-liter capacity, it reduces the frequency of emptying, offering efficient and uninterrupted cleaning.

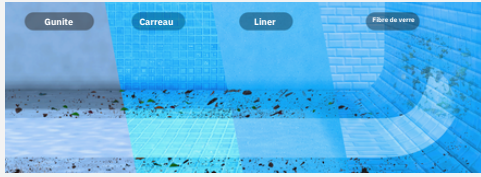

Cleaning modes

## **Une adaptabilité unique pour un nettoyage sur mesure.**

Thanks to its 7 different cleaning modes, the Wybot S2 perfectly adapts to your specific needs. Whether it's for the pool floor, the walls, the waterline, or an entire pool, each mode is designed for maximum efficiency. It offers the possibility to schedule regular cleaning cycles according to your needs.

## For which type of pool?

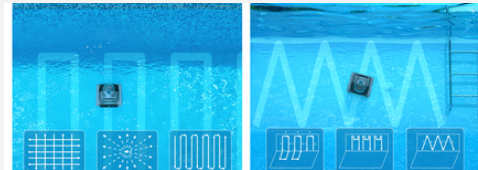

The Wybot S2 Pro adapts to all surfaces: tile, liner, concrete, or shell, for a perfect clean.

Thanks to underwater ultrasonic communication, the Wybot S2 Pro can be remotely controlled with remarkable precision directly from a smartphone.

The Wybot S2 Pro adapts to all pool shapes—rectangular, round, oval, or free-form—for efficient cleaning everywhere.

Connected to the Wybot app, the user can access predefined movement paths for the ground (3 patterns) and the walls (3 patterns).

## TECHNICAL SPECIFICATIONS

Cleaning Coverage	Floor, walls & waterline
Usage / Charging	3h30 - 3h00
Filtration	180µm filter basket + 25µm cotton filter
Weight & Size	8,5kg - 40(L)x39(l)x25(H) cm Station 3Kg - 60(L)x6(l)x25(H) cm
Motors & Power	3 motors - 90W
Suction Flow Rate / Movement Speed	14 m3/h - 10m/min
Battery Power	25.2V   7800mAh
Sensors	Gyroscope, Infrared, Depth & Sonar
Mobile Application	✓
Remote Control	✓
Cleaning Mode Configuration	Via APP + Boutton
Timer Types	1 x 200 min    2 x 100 min 3 x 66 min    4 x 50 min
Modes Cleaning	Floor - Walls - Waterline - Walls + Floor - Standard complete pool - Turbo - Eco - Expert

### Included in the packaging

- Robot
- Charging dock + support
- Charger + cable
- Floating parts
- Recovery hook
- User manual
- Quick start guide

36-Month  
Warranty
