

VISION & ARTIFICIAL INTELLIGENCE

Wybot C2 Pro Vision

The Wybot C2 Pro Vision is a battery-powered pool robot that combines cutting-edge technology with sleek design. Equipped with a smart camera, it detects and targets debris with unmatched precision. Its power ensures optimal efficiency, whether it's cleaning the pool floor, walls, or waterline, and it adapts to all types and shapes of pools.

Smart
Navigation

A revolutionary vision for targeted cleaning

The Wybot C2 Pro Vision is equipped with a camera that allows it to detect and collect debris scattered throughout your pool. Thanks to this intelligent detection, it identifies areas to clean and ensures maximum efficiency and coverage with every pass.

Constant
Learning

Artificial intelligence for perfect cleaning

Its AI and constant learning algorithms allow the robot to continuously adapt its settings and routes to your pool's layout, guaranteeing optimal cleaning on all surfaces.

Dual
Filtration

Ultra-efficient double filtration for crystal-clear water

Equipped with dual filtration, the Wybot C2 Pro Vision combines a 180-micron pre-filter with a fine HEPA filter to capture even the finest debris.

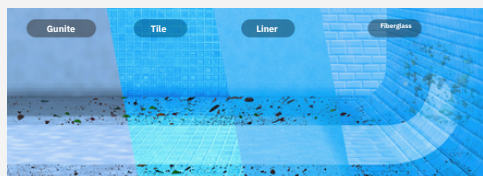

Cleaning
Modes

Unmatched adaptability for smarter cleaning

With its 8 smart cleaning modes, the Wybot C2 Pro Vision adapts to all pool configurations. Whether it's the floor, walls, or waterline, it adjusts in real time to ensure maximum efficiency.

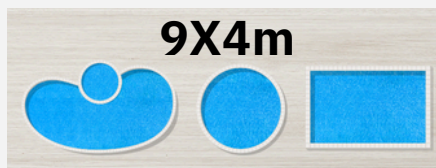

For what type of pool?

The Wybot C2 Pro Vision adapts to all pool surfaces: tile, liner, concrete, or shell, for a perfect clean.

The Wybot C2 Pro Vision offers 3 cleaning programs: floor, walls, or floor + walls, selectable with a single button on the robot, for maintenance tailored to your needs.

The Wybot C2 Pro Vision adapts to all pool shapes: rectangular, round, oval, or free-form, for efficient cleaning everywhere..

When connected to the Wybot app, the user can access specific movement paths: 5 patterns for the floor and 3 for the walls.

CARACTERISTIQUES TECHNIQUES

Cleaning Coverage	Bottom, Walls, and Waterlines
Usage / Charging	3h00 - 3h00
Filtration	Basket Filtration 180µm + Ultrafine Filter
Weight & Size	9,5Kg - 36(L)x36(L)x24(H) cm
Motors & Power	Three motors - 65 watts
Suction Flow Rate / Movement Speed	11,5 m3/h - 10m/min
Battery Power	21.6V 4600mAh
Sensors	Gyroscope, Ultrasonic Sensor & Camera
Mobile Application	✓
Remote Control	✗
Cleaning Mode Configuration	Via APP + Button
Timer Types	1 x 120 min 2 x 60min 3 x 40 min 4 x 30 min
Modes Cleaning	Bottom - Walls - Waterline - Wall and Floor - Standard Complete Pool - Turbo Bottom - Eco - Expert

Included in the package

- Robot
- Charger
- Basket filter + Ultrafine filter
- Floating components
- Restoration hook
- User Guide
- Quick Start Manual

GUARANTEE
24 MONTHS
